
Air Liquide Foundation Newsletter #1

The **Foundation team** is pleased to share with you this **first edition** of her **newsletter**. **We know you have little time to spare**, so just **browse** through the headlines and the short summary, **or dig deeper** into any of the news.

Enjoy the read!

J-M de Royere & the editorial team

Job-integration: we get started in Normandy

On **November 8th**, a new "Ecole de production" (a vocational-training school targeting industrial skills) was formally **opened** by **Edouard Philippe**, mayor of **Le Havre** and a former prime minister of France. The Air Liquide Foundation and local Air Liquide teams, **who actively support the project with their know-how and local networks**, took part. Air Liquide has extensive operations in this industrial part of the country.

The Foundation on set!

On **September 29th** and **Oct 4th**, "Capa Entreprises" installed its film set at a **Paris hospital & in Cholet, France**. The purpose was to shoot the **Air Liquide Foundation's new corporate film**. Researchers, educators and Air Liquide colleagues were "hired" by the crew, **so were talented youngsters!** The **4'30"** story, subtitled in English and available for viewing **on the Foundation's website**, illustrates the non-profit's two priorities, **basic research** and **job-integration**.

Shareholder fundraising: just a few days left!

Since **November 9th**, **Air Liquide's shareholders** can join an **on-line fundraiser**: the **Foundation** seeks support for **two job-integration initiatives**, for **Predict'Air** -a breakthrough research project- and for its 2022 "**long covid**" campaign. Donations up to €1,500 made this year by French residents **are eligible for 66% credit on 2021 income tax**, while local tax rules apply elsewhere. **If you are a shareholder and wish to take part or just know more about these projects, please go to <https://soutenir.fondationairliquide.com>**
